## Mitchell Falls Explorer Highlights

### Mitchell Falls Explorer KL8W (Wet Season)

Due to seasonal changes and the closure of Mitchell River National Park, we offer an amended itinerary between the months of Sep to Apr.

PRICE: Adult \$1,470,  
Concession \$1,440,  
Child \$1,370,  
Family (2A & 2C) \$5,580

- Departing Broome, we track North across King Sound, home to Australia's largest tides, fly over Walcott Inlet, the rarely seen Harding Range, and the Prince Regent River, before landing at Mitchell Plateau airstrip.
- On arrival into Mitchell Plateau, after a refreshment stop, experience driving along one of the most remote Kimberley tracks in your comfortably airconditioned 4WD through the vast ancient Livistona Palm forest to the Mertens campground for your scenic helicopter transfer to Mitchell Falls with our tour partner HeliSpirit.
- Enjoy amazing scenic views of Mitchell Falls and Mertens Gorge from above on an exhilarating helicopter flight.
- On arrival at Mitchell Falls, enjoy an unforgettable view of Mitchell Falls whilst you enjoy a packed lunch, swim, rest and rejuvenate.
- After exploring the falls, a refreshing swim and many photo opportunities, enjoy a return scenic helicopter flight back to the campground for the drive back to Mitchell Plateau airstrip.
- After arriving back at the airfield, enjoy some well-earned refreshments before the homeward flight.
- On the homeward flight, we track the coastline past Kuri Bay, home to the Paspaley Pearl Farm and the beautiful Montgomery Reef.
- Fly over Horizontal Waterfalls described by Sir David Attenborough as the 8th Natural Wonder of the World.
- Marvel at the stunning Buccaneer Archipelago and its 1,000 islands and the stunning northern tip of the Dampier Peninsula, Cape Leveque.
- Coastal return flight along the bays and beaches of the Dampier Peninsula with views of Beagle Bay, James Price Point, Willie Creek Pearl Farm and world-famous Cable Beach as the sun sets over the Indian Ocean.

The Horizontal Waterfalls is a natural phenomenon which is tide dependant with variable flow. We cannot guarantee the amount or level of water flowing through the Horizontal Waterfalls at any given time.
