Devonian Reef Explorer Highlights

- Fly over the spectacular pindan cliffs and turquoise waters of Roebuck Bay.
- Travel over the vast mangroves and wetlands of Roebuck Plains.
- Flying over the Fitzroy River we approach the Napier Range, mostly made from heavily eroded limestone, or karst, with the ridges composed of an ancient Devonian reef system.
- On arrival into Windjana airstrip meet your local guide and jump aboard your airconditioned 4WD tour bus.
- Enjoy a walking tour through Windjana Gorge, learn about the spiritual significance of the gorge and see freshwater crocodiles basking in the sun.
- After lunch served beneath the shady bloodwood trees, explore the 750m long Tunnel Creek that runs beneath the 350-million-year-old Devonian Reef System.
- Learn about the Bunuba people, and hear the story of Jandamarra the Aboriginal Warrior who hid out in the tunnel and led the Bunuba resistance against the oppression of the local Aboriginal people during the late 1800's.
- Visit the historic ruins of Lillimooloora Police Station.
- Stunning afternoon flight back to Broome.

Derby Visitor Centre

* For your convenience it is advisable to wear comfortable walking shoes at Windjana Gorge. (The track is mostly drift sand). The Tunnel Creek tour is a memorable experience and the 750m tunnel is entered over some large rocks requiring a reasonable level of fitness. Once inside you will negotiate a series of sand bottomed pools of variable depth. Strap sandals, reef shoes or sneakers with socks are recommended. It is suggested that you wear your swimsuit for the Tunnel walk – however you can wear an old shirt and shorts. Head torches are supplied for your tour. If you plan to carry your camera through Tunnel Creek, a suitable carrying bag is advisable as protection against potential water damage. Morning Tea, Lunch and Afternoon tea is provided.
